Re: Bayonne Barrel & Drum Superfund Site
Newark, New Jersey
• EMR Photoelectric ("EMR")

Dear Ms. Seidenberg:

On behalf of EMR Photoelectric, we appreciate your recent response to Mr. Bruce McCann regarding the Agency's information connecting EMR to the Bayonne Site.

We have reviewed the information enclosed in your letter (dated November 20, 1995), and based on that we have gone back and searched our files again. Our search has confirmed that 16 drums of waste material were sent to S&W Waste, Inc. in South Kearny, New Jersey. However, we have not been able to confirm through our file search, and your letter did not explain, how any portion of that waste shipment is connected to the Bayonne Site. If there is a connection between our February 1983 shipment to S&W and waste which has been found at the Site, we would appreciate knowing about it. However, until that connection is made we continue to stand by the position articulated in Mr. McCann's October 26, 1995 letter (and its attachment) to Mr. Cosentino that EMR does not have any information which associates the company to the Bayonne Site.

If you have any questions regarding this matter, please to not hesitate to call me.

Sincerely,

Brian W. Curtis, II
Senior Environmental Counsel
